Integrated management system policy

In order to fulfill the strategic objectives of ELDIS Pardubice, s.r.o., the company management declares the following policy of the integrated management system.

Our company was founded in 1991 and is one of the major Czech manufacturers of airport radar which operates not only on the Czech market but also abroad through:

- satisfied customers
- satisfied owners and employees
- meeting the needs and expectations of the public
- good relationships with suppliers

The main products and services provided include development, production, sales, installation, training and service of radar technology, data processing, transmission and recording equipment and air traffic control equipment.

We provide all products and services in accordance with relevant legal and other requirements (Czech and foreign) to meet our customers' needs in the required quality.

We hold a military equipment permit and a certificate of security issued by the National Security Authority and our management system complies with NATO AQAP 2110 and NATO AQAP 2210 requirements.

We have a team of specialists who are regularly trained in quality management, environmental protection and information security.

We continually identify and evaluate the risks associated with our operations and strive to manage them through appropriate security measures.

We pay close attention to the security of our core assets, both our own and our customers, business partners and other stakeholders.

The integrated management system meets the requirements of ČSN EN ISO 9001:2016, ČSN EN ISO 14001:2016 and ČSN EN ISO/IEC 27001:2023 standards. The management of the company undertakes to update and improve the policy and other related documentation of the management system so that it always corresponds to the nature and scope of our activities.

To achieve this integrated management policy which is binding on all employees of the company objectives will be announced annually. The company management will be responsible for their announcement and performance. The evaluation of the objectives for the past year will be carried out as part of the management review of the integrated management system.
